

Cloud Computing Bootcamp

Launch Your Career in Cloud Computing

Why Choose **Digitalearn's** **Cloud Computing Bootcamp?**

Cloud computing is one of the fastest-growing fields, and skilled cloud professionals are highly sought after across industries like IT, finance, and healthcare. By earning a Digitalearn Cloud Professional Certificate, you'll open the door to exciting roles such as:

- **Cloud Solutions Architect**
- **Cloud Engineer**
- **DevOps Engineer**
- **Cloud Security Specialist**
- **Cloud Consultant**

With average salaries ranging from \$80,000 to \$140,000 per year, a certification in cloud computing significantly boosts your career prospects.

How this program works differently with highlighted **Key Solutions** ?

Career Preparation

- Mock Interview Prep (Technical + Behavioral)
- Resume Building with Proven Templates
- Job Application Guides
- Internship Benefits for Real-World Experience

Practical Learning

- Live Projects (5+ Real-World Cloud Projects)
- Hands-on Labs and Interactive Sessions
- Updated Tools and Techniques

Additional Learning Support

- Personality Development Classes
- On-Demand Class Recordings
- Comprehensive E-books

Certification and Exams

- Certification Exam Simulation

Ongoing Mentorship

- Lifetime Career Mentorship
- Networking Tips and Job Assistance

How Course **Curriculum** will Look like ?

Week 1-2

Introduction to Cloud Computing

- Fundamentals of Cloud Architecture
- Overview of Cloud Providers (AWS, Azure, GCP)
- Hands-on Labs: Setting Up Your First Cloud Instance

Week 3-4

Cloud Services and Solutions

- Understanding IaaS, PaaS, SaaS Models
- Deploying and Managing Virtual Machines
- Practical: Setting Up a Scalable Web Application

Week 5-6

Cloud Security and Governance

- Basics of Cloud Security and Compliance
- Identity and Access Management (IAM)
- Labs: Implementing Security Best Practices in AWS

Week 7-8

Advanced Concepts and Career Prep

- Automation with CloudFormation and Terraform
- Introduction to DevOps in Cloud (CI/CD Pipelines)
- Resume Building and Mock Interviews

How Schedule and Commitments will work?

Duration
2 months
(8 weeks)

Mode
Mode: 100% online
(Live sessions,
practical tasks,
and self-paced
study)

Commitment
2 hours per day
(Mon-Wed-Thur-Sat).
for a total of 70 hours

What are **Practical Tasks** in the training Program?

The bootcamp focuses on practical skills to ensure job readiness:

Cloud Security Configuration

Implement robust security policies for compliance.

Cloud Architecture Design

Build scalable, fault-tolerant architectures.

Automation Tasks

Deploy infrastructure using Infrastructure-as-Code (IaC) tools.

Migration Projects

Plan and execute on-premise to cloud migrations.

How **Mock Interview** Preparation will help?

To maximize job readiness, the program includes:

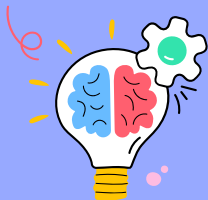

Mock interviews for cloud-specific roles

Resume and LinkedIn profile optimization

Technical Q&A on common interview topics

Soft skills training for professional communication

Upon Completing the **Program**,
You'll Receive:

4.9 Average Rating	3500+ Students Got Job	4000+ Satisfied Learners	100+ Highly Qualified Trainers
--------------------	------------------------	--------------------------	--------------------------------

Certifications Covered

What Kind of Support Will You Receive?

Mentorship

A dedicated mentor to guide you through the learning journey

Alumni Network

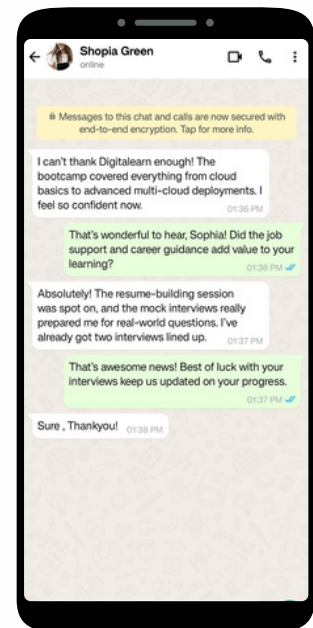

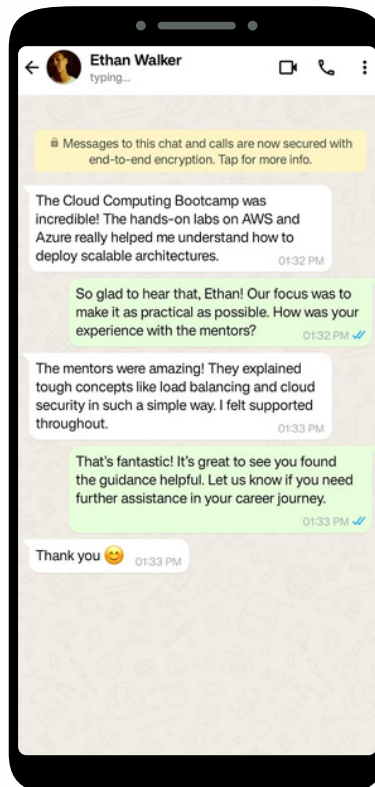

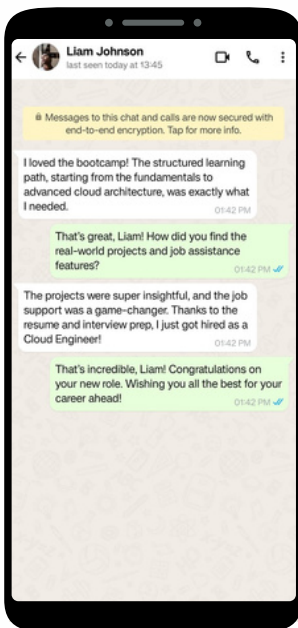

Access to a supportive community of cybersecurity professionals

Career Assistance

Networking tips, job search strategies, and interview prep

What our **students** say ?

Frequently Asked Questions (FAQs)

? 1. What is cloud computing?

- ✓ Cloud computing refers to the delivery of computing services like servers, storage, databases, and software over the internet to offer faster innovation and flexible resources.

? 2. What does the bootcamp cover?

- ✓ The bootcamp covers core cloud concepts, architecture, security, and tools, plus job prep and practical projects.

? 3. What certifications are included?

- ✓ You'll earn the DCCP Certificate and gain prep for certifications like AWS Certified Solutions Architect.

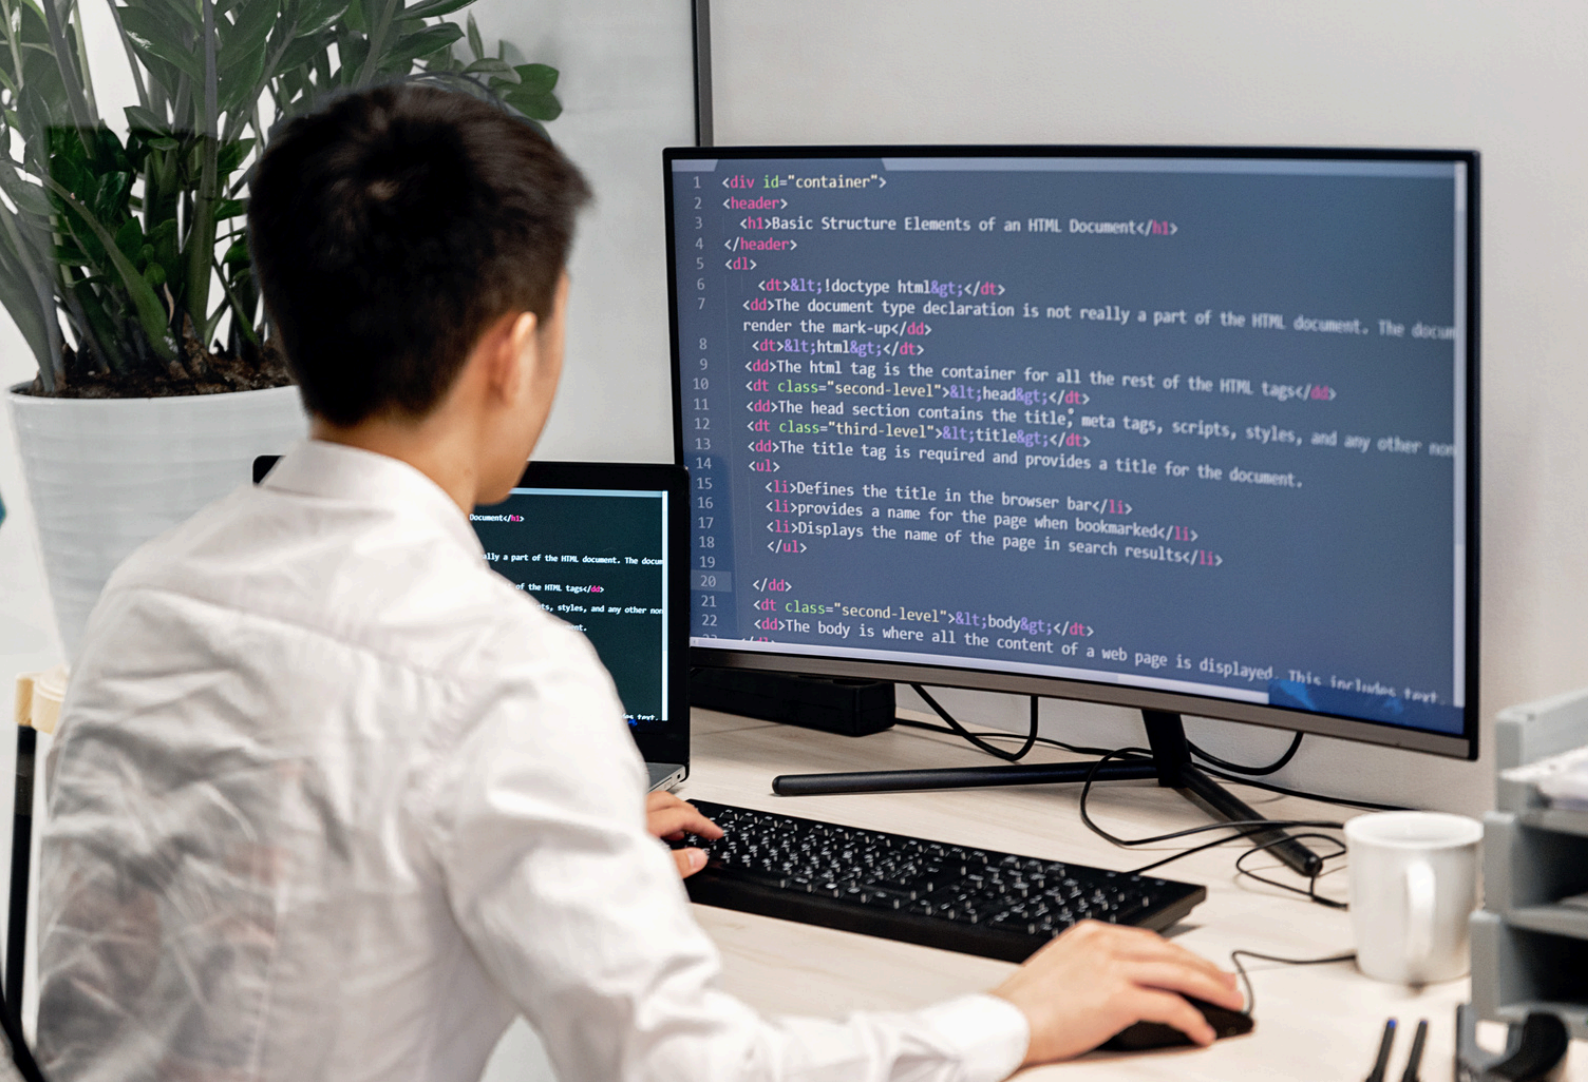

? 4. What roles can I pursue after completing this course?

- ✓ Roles include Cloud Engineer, DevOps Engineer, Cloud Architect, and more.

? 5. Is prior experience required?

- ✓ No, the bootcamp starts with basics and advances to professional-level training.
